

The Zero-Capital Side Hustle Playbook — Free Preview

This is a free preview of the full playbook. It covers the 7-day action plan that applies to any of the 10 methods.

Your First 7 Days (Applies to Any Method)

Day 1	Choose one method that matches your current skills. Don't overthink it.
Day 2	Set up your presence: portfolio, profile, or simple landing page. Use free tools.
Day 3	Reach out to 10 potential clients. Direct messages work better than job boards when starting.
Day 4	Follow up with yesterday's contacts. Send 10 more messages. Consistency beats perfection.
Day 5	Complete your first project. Even if it's free or heavily discounted. Ask for a testimonial.
Day 6	Set up your payment system. If using crypto, test with a small transaction first.
Day 7	Reflect: What got responses? What didn't? Double down on what's working.

The 10 Methods (Overview)

1. Freelance Writing — Write articles, blog posts, product descriptions.
2. Web Scraping — Extract data for businesses that need it.
3. Simple Web Development — Build landing pages for local businesses.
4. Bot Development — Telegram/Discord bots for communities.
5. Digital Products — Templates, guides, tools (passive income).
6. Social Media Management — Manage accounts for small businesses.
7. Data Cleaning — Format and organize messy datasets.
8. Virtual Assistant — Handle admin tasks for entrepreneurs.
9. Online Tutoring — Teach a skill you already know.
10. Affiliate Marketing — Recommend products, earn commission.

Get the Full Playbook

The full version includes detailed step-by-step instructions for each method, specific tools to use, pricing guidance, and common mistakes to avoid.
